Misokuhle Mdlankomo

Junior Software Developer

I am a dedicated and reliable professional who takes pride in getting tasks done efficiently and effectively. I work well with others, bringing strong communication and collaboration skills to any team. I'm always eager to learn and adapt, constantly seeking opportunities to grow both personally and professionally. My commitment to delivering quality results while embracing challenges makes me a valuable team member in any environment.

Experience

July 2023 - Dec 2023

Codespace

I developed a digital resume using HTML and CSS to showcase my skills and experience. The project has been deployed on GitHub Pages and can be accessed via the following link:

https://github.com/Misokuhle5/MISMDL223_FTC2306_GroupB_MisokuhleMdlankomo_ITW9.git

Jan 2024 - Jan 2025

redAcademy Sprinter

- Developed expertise in C# programming by creating dynamic and interactive solutions.
- Created a console application simulating a coffee machine, showcasing advanced problem-solving and object-oriented programming skills.
- Designed and implemented a loan application website, enabling users to apply for loans, calculate payment amounts, and determine applicable discounts.
- Contributed to client projects by developing various financial calculators and delivery charge estimators, ensuring accurate calculations and user-friendly interfaces.
- Worked on backend development, including database design and creation for efficient data storage, establishing secure API connections to seamlessly integrate frontend and backend systems, and implementing backend parameters for complex financial calculations.
- Performed unit testing to ensure the accuracy and reliability of backend services and APIs, identifying and resolving issues to optimize performance.
- Conducted frontend testing, manually verifying user interfaces and results for accuracy, usability, and alignment with business requirements.
- Played a key role in end-to-end development and testing, ensuring that all components worked together seamlessly and delivering high-quality solutions tailored to client needs.

Dec 2024 - Present

Hashdata

- Worked as a Junior Software Developer using PHP and Laravel, focusing on module migrations to ensure efficient data structure updates and seamless integration with existing systems.

- Contributed to frontend application development, enhancing user interfaces to ensure a seamless and intuitive user experience.
